

## To Whom It May So Ever Concern

We are using STATISTICA software for last six months. This software is being used for our day to day work in Quality Assurance department for the checking of product quality which we produce. The software is reach in statistical principals and these are very useful for our requirements.

The local support of StatSoft India is prompt and effective.

We look forward for a long term association with StatSoft India and their product STATISTICA

For Hollister Medical India Private Limited
